## Dear Bamyler:

Encloaed is the power of attomey all algned. This is moh better than me trying to writo one as you know best what you want, to do and furtherwort I had no desoription of the property. I read it over quite omapally and there is nothing in it about you removing the house For your own use ithout selling it. Thus it appeare that you will have to aell it to yourself. You oan ilx this up with Woodward. I presum that you still are thinking about moving the house up to the northwent part of town. If it oan be done, this is the best idea as I feel quite pleasentiy toward that house and wouldn't want to have it torn down.

The situation out here is about normel, namely I'm trying to do too muoh. When this Australian venture is finished I think I'm going to retire, At one: time I thought I'd make come more meseuremente here in Fowili. However the results ere not comonensurate with the effort. I doubt that the level of general intelligence heze exceeds that of misas ssippi. The result is that I have to lobk at and examine every minute itea. Farinstance, I oculdn't cet ány boxes made to ship my apperatue without making up complete drawings and having long discussicas ecout what thoy are to be made of and how. Three years of thie kind of trivia makes me very weary. If, for any reeson, the military deoided that tio Islends were of dmall value ina nex strategy and quit opetding large aums here the whole plaoe would oollapse.

I'd hoped to have all my apparatue in working order when it is packed. This is going to be imposibible becaune some of the things I've ordered are still on the way. Thus I will have quite a bit of tinkering to do in Hobart. The Orion leaves Honolulu on Sunday the 17th of October. I plan to go over to Honolulu on Fednesday the $23 t h$.

The box arrived here in good shape. Thanke. It is too late to mend anything else co hold whatever mail comes until you hear from me in Hobart. Alao please write to me onee more before I leave so that $I$ will be reasaured that everything is alright with you and youre.
