

NATIONAL RADIO ASTRONOMY OBSERVATORY
Green Bank, West Virginia

March 28, 1962

MEMO TO: JWF, HH, FDD, FJC

FROM: DSH

Charles Dunbar called this morning to inform us that Dr. Pawsey is in a hospital in Washington. You recall that he was having some difficulty with his leg. At the moment the doctors don't know what is wrong or when he may be up and around again. I have sent him a note -- he might like to hear from others as well. In particular, would FJC keep in contact with someone -- perhaps Dunbar for a start -- so we can be on tap to do anything we can to help. Pawsey is at:

Washington Hospital Center
110 Irving St. N.W.
Washington, D. C.

Rm. 4-D 36.
