

September 11, 1956

Mr. William A. Porter
Bigham, Collins, Porter & Kessler
1100 Tower Building
Washington 5, D. C.

Dear Bill:

I am sorry I could not come down to Washington on Monday, September 10. Dave Heeschen told me over the phone that you wanted to assemble 20 copies of various materials for the FCC presentation. We are sending by express a parcel of 20 copies of the Planning Document. Dave said he would undertake to prepare the answers to the technical questions contained in the FCC notice. It seems best that the NSF should prepare the budget information and Dave will speak to them about it.

We are aware that your position must be clarified. Both Charles Dunbar and I have been after the NSF to write an appropriate letter to us or to you.

Sincerely yours,

RME

Richard M. Emberson
Assistant to the President
