Dr. Grote Reber
C.S.I.R.O.
Stowell Avenue
Hobart, Tas., AUSTRALIA

Dear Dr. Reber:

We have received your letter of 2 Oct. 1961.

There seems to be some mix-up, or something, with the mail service since you apparently have not as yet received our letter of 6 Sept. 1961 in which results of analyses on 4 of the samples were reported. I can find no reason for this unless it was forwarded by surface mail instead of our usual air mail. We reported 5 additional results in a letter posted 9 Oct. 1961.

In Addition to the reasons for delay quoted in these previous letters, we also experienced a slight delay in getting the samples through customs.

Listed below is a summary of the data reported in the two letters.

<u>I. I. No.</u>	<u>Sample</u>	<u>Age in yrs. bp.</u>
I-315	2C South Dennis Point	<100
I-317	4A Bessy mound	1500 ± 150
I-318	5A With Henry	<100
I-319	6B Flat Mound	<100
I-320	7C South of Arthur	<100
I-321	9A South of Light House	550 ± 175
I-322	10A North of Light House	2350 ± 150
I-323	11A Carleton River	3700 ± 200
I-324	12A East Point	5220 ± 110

We plan to complete the remaining sample this week.

We hope that these delays have not inconvenienced you unduly.

Sincerely yours,

ISOTOPES, INC.
