Dr. Reber,
For your information.

Om

12th February, 1963.

Mr. H.K.G. Mair,
C/- National Herbarium,
Royal Botanic Gardens,
SYDNEY.

Dear Knowles,

Thank you for your letter of
6th February and the interesting information about Bowia.

If I should ever come to Sydney
(which I normally try to avoid) I will certainly look you up.
I am hoping that Dr. Reber may visit Sydney this year and will
get him to call on you.

He has noted that in the old "sacred
text" F.O. Bower, Botany of the Living Plant (which we both
probably remember with horror) that in copying Strasburgers
illustration of dextrose and sinistrose plants, he has got
his illustrations interchanged.

Kind regards,

Yours sincerely,

(D. Martin.)
Officer-in-Charge.

*Saw him at Garden on 14th in morning. He was very
impressed by my Bowia*
