Dear Bert:

There is a small matter I wish you would enquire into. Presumably, last January the Gary Wheaton Bank declared a dividend. So far I've not received a check or any other word about the matter.

Presently, I have some of my scientific apparatus stored with Hahn. It was my intention to endorse this check over to Hahn for storage charges. They will be wanting their money, so I was anticipating receiving this check. The one issued last July came thru promptly.

Please find out the status of this matter. If the check is not already on its way by sea, please have it dispatched promptly by air.

I hope that no further misfortunes have befallen the matter on Seminary Avenue.

Best regards,

Grote Reber
