Dear Mr. Shuman:

Thank you for your letter of the 23rd July and comments therein.

I would much appreciate a specific reference to the Wells-Gardner sets you mention including model numbers and/or a circuit diagram. If you can remember the types of tubes used, this will assist in giving an approximate date. Can you find an article on Task's Superdync? Whatever else you can locate on this interesting subject will be much appreciated by me.

Very truly yours,

Greta Reber
