

March 7, 1955

Dear Grote:

A week ago Saturday I sent off the package to you containing the graph paper, hearing aid cord, and a variety of papers. The local P.O. estimated it would be 5 weeks to arrive in Tasmania. There is no insurance arrangement on most foreign mail including Australia.

The coils are in the attic and the Richardson correspondence is in the file. I received your check & your bank box rent is paid.

We are all fine and I am working pretty hard but I'm pretty joooped by the week-end. Todd & Larry are real ruffians, and Jean really has to ride herd on them.

The business picture has improved somewhat which is encouraging. On the other hand, it couldn't get any worse, than it was a while ago.

Here's hoping your researches are coming along to your satisfaction. How about letting us know just what you are doing and for whom.

Replied on 4-20-55. Told to All the kids from all of us, cancel the coats, also about Holes O, X, Z, L. and ~~Alta~~ Schumley. Returns in October.
