

2nd January 1957

Mr. W. B. Chadwick  
Radio Propagation Division  
National Bureau of Standards  
Boulder, Colorado

Dear Mr. Chadwick:

Thank you for your letter of 18th December 1956. It is unfortunate about the microfilm of the Rarotonga data. However now the mystery is cleared up as to why it wasn't in Hawaii when I called there last during December 1955. Down here I have direct access to this data continuously. Thank you for your efforts anyway.

In regard to the Buenos Aires and Sao Paulo data, the situation is as follows. I expect to be here until mid June. After the end of April it will not be possible for me to do anything with the data as all my time will be used in folding up my affairs. If the data can be gotten here early in March I will be able to analyse it here. If not, then it would be better to hold it until I get back to Hawaii sometime in July. My address there will be

Grote Reber  
General Delivery  
Wailuku, Maui, T.H.

The package should be marked "Hold until return of Addressee". How to handle this matter I will leave to your judgment.

It pleases me that my article on World Wide Spread F is sufficiently worthwhile to get requests for reprints. The reprints were never sent here but remain at DTM. I am writing to Harry Wells, requesting him to send a half dozen copies to you direct.

Thank you for your past efforts again. I am sure the future ones will be more profitable. Please remember me to Alan Shapley.

Yours faithfully,

Grote Reber
