Dear Schuyler:

Mother Grote has given us your address so we could in turn get Grote's address from you. Our boy, Buck (Palmer Hageman), is 15 now, and most interested in the same type of thing that has occupied so much of Grote's time. He is interested in writing to Grote, and hence the desire for his address.

We have entertained the idea many times of making a trip East to see Wheaton and any remaining relatives, but that day never seems to arrive. Mother Grote enjoyed so very much your visit to her, and appreciated your time given. We all of us had such a pleasant time when your mother visited here, and of course she will always remain one of my favorites.

If you have time to write a brief note, we are always interested in what the other Grotes are doing, their families, etc., and perhaps if our Buck works up a friendship with Grote we'll know more about each other as time goes on.

With all good wishes to you and yours,

Sincerely,

(Mrs.) Leroy Grote
