

10/8/90

Dear Paul:

On 25/6/90 I wrote requesting data on StJohn's and Winnipeg for period Nov 48 thru Oct 54. Since then I've secured much of this from IPS in Sydney. If you've started job, please finish and send by TWT, Sydney. It is much faster and cheaper than postal department. I'll use your contribution for comparison purposes.

What I'm most interested in is Ottawa prior to Nov 51 and as far back as records go. All IPS has is median values. These are not suitable for this study. I need monthly sheets giving hourly values of  $f_0F_2$ . Please look into subject and send on whatever is available at your earliest convenience.

If you see Don Muldrew or any of the fellows at Shirley Bay, please remember me to them.

Best wishes,

*Grote Reber*
