VICE PRESIDENT and SECRETARY

Mr. Grote Reber  
National Radio Astronomy Observatory  
Post Office Box 2  
Green Bank, West Virginia

Dear Grote:

Glad to hear that you got to Green Bank in good order and that you are not discouraged with the appearance of things there. Incidentally, I don't know how widely the alternate name is being used, but I was quite intrigued by Al Kelleher referring to it as Greenback in a letter the other day. Knowing Al, I doubt that it was unintentional.

We are trying to get a reading on the first Mullard shipment. Will advise you as soon as we know anything about it.

I shove off for the West Coast for several days in approximately an hour. Accordingly, the Mullard problem and any others are left in more efficient hands than mine.

Paul Scherer regretted that he didn't see you at the dedication. He was the tallest man in sight, and you may or may not recall having talked with him the last time you were here. He is one of my favorite characters as well as Executive Officer of the Carnegie Institution of Washington and a member of our Grants Committee. He is very much worth talking to when, as and if you get to Washington.

Best wishes,

*Hap Schauer*
