October 24, 1980

Mr. Grote Reber
General Delivery
Bothwell, Tasmania
Australia, 7411

Dear Grote:

Time is a component of the endless, boundless universe but it's disconcertingly detectable as it bounds past us.

Which leads up to my thanks for your letter of August 12 and its attachment. Which, in turn, enables me to include an enclosure with this -- a check (in Australian bucks, per your request) representing the remainder of the last grant authorized. A bit short of your close-out detailing but respectable even in these days of inflation. And accountants, auditors, etc. are happy with matching zeroes.

I'm in New York at the moment, for the regular fall Board meeting, complete with establishment of the coming year's budget. It's always a fascinating annual exercise, becoming more so as I become more remote from the actual operations.

You and I have had fun, very few misunderstandings and some tense periods of time since well before that first \$3,000 check for the Maui school was signed -- January 28, 1952. Almost thirty exciting years.

It's been a great life, with still some daylight ahead. I hope that we'll continue to be friends -- and that I'll get to the down under sometime -- and you to San Diego.

Sincerely yours,

Charles H. Schauer

Enclosure: MHT Check
\$1,094.36 (Australian)
1,287.51 (U.S.)
