General Delivery  
Bothwell, Tasmania 7030  
AUSTRALIA

Dear Grote:

Thanks for your kind comments about the 408 MHz project at Penticton and Bruce Veidt's thesis.

This summer marks the 25th anniversary of the DRAO at Penticton and we are hoping to hold a small celebration in September (probably September 18) to mark the occasion. We have decided that the "keynote" for the event should be the formal "opening" of the 408 MHz facility on the synthesis telescope. We would appreciate it if you could play a key role in this opening, by phone from Tasmania (via satellite) for example, since your contributions were a major factor in bringing the project to completion. Is there any possibility that some arrangements could be made so that you could participate in our celebration?

Thanks again for your kind words,

With best regards,

Lloyd Higgs,  
Director
