

October 10, 1956

Mr. Robert D. Hall  
Blaw Know Equipment Division  
Box 1198  
Pittsburgh 30, Pennsylvania

Dear Mr. Hall:

In separate packages we are sending you the following materials, as suggested by Messrs. Haddock and Tatel:

Feld 140-foot altazimuth radio telescope:

11-drawings. . . . .	\$11.00
1-description . . . . .	.63
1-draft invitation for bids	2.10
1-sample computations . . .	<u>4.62</u>

\$18.35

Husband 140-foot altazimuth radio telescope:

43-drawings. . . . .	\$ 9.03
1-description . . . . .	<u>3.75</u>

\$12.78

Kennedy 140-foot altazimuth radio telescope:

14-drawings. . . . .	\$14.00
1-description Part I. . . .	2.16
1-appendices, computation, etc. Part II . . . . .	<u>9.27</u>

\$25.43

Feld 140-foot equatorial radio telescope:

11-drawings. . . . .	\$11.00
1-description . . . . .	.63
1-lettr to Feld from Obstler Associates re the design	.56
1-Invitation for bids . . .	2.17
1-sample computations . . .	<u>4.48</u>

\$18.84

MIT Servomechanisms Laboratory Report:

Drive & Control for Radio Telescope \$ 7.07

Kochenberger-Linderff Memorandum 7/27/56:

"Comments & Suggestions Regarding Position  
Control System for 140-foot Radio Teles-  
cope Facility" no charge

Total. . . . \$82.47

The Husband & Kennedy drawings are reduced to one-half the original size. If you should wish full-size drawings we can supply them.

We have found that the preparation and distribution of copies of the design materials is a significant drain on our finite study funds. After consultations with the NSF, we determined to charge the cost to us as shown in the right-hand column above.

With kind regards and best wishes,

Sincerely yours,

*RME*

Richard M. Emberson  
Assistant to the President
