PAPER 78

30th October 1962

Dr. Gerald F. Tape,
President,
Associated Universities, Inc.,
Suite 1750, Coliseum Tower,
10 Columbus Circle,
NEW YORK 19, New York, U.S.A.

Dear Dr. Tape,

I am writing to acknowledge your letter of October 25th to Dr. Pawsey. You will be very sad to learn that Dr. Pawsey is in hospital, gravely ill. As you know, he had seemed to be improving slowly but steadily since his return from America and he was able to come into the Laboratory about two days a week. However, about two weeks ago his condition quite suddenly deteriorated and it was necessary for him to enter hospital last Friday.

I have read your letter to him, but I am not sure that its import has been understood by him. I do not know if this news will make any difference to your plans for visiting Australia, but I thought I should let you know the situation immediately. I understand Dr. Rabi has already been informed by Paul Wild of this latest phase in Dr. Pawsey's illness.

I shall certainly keep you informed of Dr. Pawsey's progress.

Yours sincerely,

S. Atkinson

(Sally Atkinson)
Secretary to Dr. Pawsey
