Mr Grote Reber

Dear Sir,

Please find enclosed account etc for plants. I hope you received them in good condition and that they will prove of value.

If you want any more would you let me know if ~~it~~ it will be satisfactory to just send the roots as ~~it~~ they would be easier to dig & send without the foliage. They appear to be going to flower shortly so I will watch them for seed and if you want any seed you can let me know.

If you have identified the plants at the time of writing I would be interested to know the correct name and I would also be very interested in the outcome of your experiments but of course that will take some time.

Yours faithfully  
J A Hogan
