Dear Grote,

Have delayed replying to your letter hoping that I could 'dig up' some info re the signals of the 20's, etc...but no luck as far as station logs were concerned that would be of interest to you..

I have sent under separate cover a copy of a magazine which has an article on reception which should be of interest...

Also, I note that many of the IRE Proceedings of the 20's have many reports on longwave reception...regular articles with graphs, signal level reports, etc,, made by RCA at Rocky Point ,etc,,I wonder if you are aware of this ?

You must be sure and visit us on your return to the States..we would like to have you as a guest here at the house...and you can spend all kinds of time browsing thru the barn 'museum'....the club has acquired lotsa 'stuff' since you were here last - hi !

Still plan to your your article in a future Bulletin...the one on Pioneer Radio Astronomy in the IRE...vy fb copi..holding same fer the rite time - hi !

73,

B. Smeq
