Mr. Grote Reber
P. O. Box 2
Green Bank
West Virginia

Dear Grote:

I shall be glad to accept your invitation to tour the recent lava country on the south rift of Haleakala on March or April 1960. Let me know when you're due in Honolulu.

You will be saddened to know of the death a little over a week ago of Harold Palmer, with whom you had correspondence on the recent lavas. He was my prof. of geology at the University of Hawaii, and will be missed by many of us.

Thanks for the reprints. I particularly appreciate, besides the lava age one, the article on temperature and humidity on Haleakala. I do not believe I have ever seen the Haleakala pressure article, though I remember your telling me about the results before publication. Do you by chance have any reprints of that left?

With aloha,

Doak C. Cox
