Dear Hap:

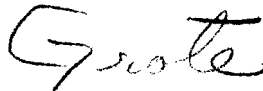

Enclosed is a quote from Aqua Sportsman on some pulleys I wish to use in Australia. Please place the order and send two of the three enclosed copies of the drawing. The pulleys should be packed in wooden cases suitable for export and sent to me at FINDERNE Plant. Some cases of insulators should soon arrive at FINDERNE from Akron, Ohio. When I get to NYC, I'll readdress all my stuff for down under.

About half the surface is on my dish and at the present rate of progress, it will take another fortnight to finish the work. I feel that I must stay and actually see the job completed properly. Otherwise, I'll probably spend the rest of my life making explanations about how it should have been done and why it wasn't.

Recently I had an operation at Charlottesville on my right ear to try to bring back the hearing. It is too early to form any judgment, but I may be lucky.

Will write again in more detail later.

Best regards,

Grote Reber
