VICE PRESIDENT and SECRETARY

Mr. Grote Reber  
C.S.I.R.O.  
Stowell Avenue  
Hobart, Tasmania, Australia

Dear Grote:

By virtue of eavesdropping on Jennie's correspondence, I am posted on your affairs up to January 5. We will certainly be interested in hearing how you approach the contract completion time on the Bothwell installation.

While you seem to have extricated yourself from the Ohio State situation, you may have a little more difficulty with the Russell Lecture this year. I just had a note advising that you are up for that again, and I understand it is to be toward the end of August, probably at Yale. I am sure if you have not heard in more detail officially by now that you will be hearing in fairly short order. Having some files of your past correspondence here, Jennie has dug up a letter you wrote October 31, 1960, in connection with the last time you turned that one down, which closes on the note: ". . . please put me down for a sure thing during northern summer of 1962." I don't know how this may look to you at the moment, nor how it may fit with activities down under come August, but I think this would be a very good excuse for you to make one of your biennial or so visits back to the states.

I am taking a look at "Science Since Babylon" but will relay it on to you shortly.

Best wishes,

Charles H. Schauer

P.S. Your brother from Memphis, who was visiting New York today, has just called. We gave him your address.
