

January 12, 1961

To: Mr. Grote Reber

You have received the following reprints (which will be kept here unless you want them):

"Evidence for the Solar Corpuscular Origin of the Decameter - Wavelength Radiation from Jupiter," by Thomas D. Carr, Alex G. Smith, and Heins Bollhagen (University of Florida)

"The Discrete Sources of Cosmic Radio Emission," by J. G. Bolton (Cal Tech)

"Two-Element Interferometer for Accurate Position Determinations at 960 MC/S," by Richard B. Read (Cal Tech)

You have received Christmas cards from the following (these were addressed to Green Bank and have only recently arrived here in a packet of mail forwarded here):

C. M. Jansky, Jr., Washington, D.C.
The Flemings (James H.), Alexandria, Va.
Ray Lewis and family, Sterling, Va.
Ruth and Bill Hulswit, Grosse Pointe, Michigan
John and Edith Hagen, Arlington, Va.
John and Martha O'Keefe, Washington, D.C.
The Emerson Squires, Wheaton, Ill.

J.E.

A card from Maritime International Co., 199 Front Street, Hempstead, L.I., N.Y., addressed to you at Research-Cottrell, says:

"We have one G E VV206 new, original Box @ \$100.00.
Sell or trade for other tubes."

(No other name except the Company's)
