Dear Bert:

The key to my bank box arrived quite some time ago in good order. Thanks. Enclosed are two reprints. One tells about what I was doing in Tasmania and the other describes my old researches in Wheaton. The latter will probably be more interesting.

Along about next August, I expect to make a trip to New York and will be stopping a short time in Wheaton. Unless you are away vacationing, we can get together and go over old times and new. I'd be interested to hear an off-the-cuff description of what went on while I was down under.

Best regards,
