Dear Mr. Hair,

The couple of hours spent with you at the Gardens was a pleasant feature of my trip. I hope that you can locate the missing *Howia* and that yours at home will prosper. Upon my return, I find that the second stalk of mine has grown to over a foot high with luxurious foliage.

Please remember me if you can secure a source of *Leuca Laberitis*. Thanking you for your efforts on my behalf, I am

Sincerely Yours,

Grete Haber.
