Mr Grote Reber  
Green Bank West Va.

Dear Mr Reber:

I have your letter of August 8 before me in which you stated that you were interested in the remainder of my old radio sets and spare tubes and your offer for the various items.

You also asked that I get an O.K. from Mr Smith and you would send your check and instructions for shipment

If I remember correctly I wrote you and accepted your offer and due to the fact that this equipment belongs to me, I asked that the check be made to me  
as yet I have had no answer and I am wondering what

happened and if you are still interested in the deal

I have even thought of the possibility that I might have offended you with the informal tone of my letter. If this should be the case I assume that it was unintentional on my part.

I ~~had~~ received a letter from my friend Dr. Wm Birkemeier who is at Arkansas State University. He went to Purdue and was here until August this year. I gave him the folder that you sent me because I thought it would fit into the work he was doing. He remarked about you in his letter (quote) He has published far more articles on the subject than any one else I find. In fact since the discovery of extra-terrestrial radiation in the 1930's until 1949 he was the only investigator worked at his home at Wheaton Ill. ~~at~~ He is now about 50 yrs. old -

I was very glad to get this information and will say that you deserve great credit for

apparently putting a lot of  
untiring effort into your  
chosen field of endeavor. Keep  
up the good work —

If you find time and care  
to, please bring me up to date  
on the old radio deal.

Sincerely yours.

Leslie A Galloway
