Dear Sir:

Dear Mr. Kelleher:

Thanks for your cordial invitation. Some of the past few weeks has been spent on the southwest coast of Hawaii. The end of things is in sight here. I have a reservation on Transocean flight #401 arriving Los Angeles 9:45am on the 30th September. My main business in L.A. is to see John Bolton who is in charge of radio astronomy at Cal. Tech. I understand that he has a rather pretentious setup somewhere in the desert. I'd like to have an opportunity to go out there with him and discuss the whole venture. Perhaps you would be kind enough to contact him and make an appointment. Any day or few days will be satisfactory to me as I have no set itinerary. Hap has suggested that we get together for lunch or sometime with Bill Woods. I would be pleased to meet him and discuss radio astronomy. Looking forward to seeing you at the end of the month, I am

Sincerely yours,
Grote Reber
