

11th August, 1964.

Dr. A. P. Wilson,
Long Ashton Research Station,
BRISTOL, U.K.

Dear Dr. Wilson,

Thank you for your interesting and informative letter of 29th. July. I will secure copies of the references you give. The seeds arrived in good condition yesterday. I have planted a dozen of each today.

Recent experiments of mine on twining vines will be described in the next issue of the Journal of Genetics. A reprint will be sent in due course.

Dr. Martin joins me in thanks for prompt service and requests being remembered to Dr. Luckwill.

Yours faithfully,

Greta Reber.
